

Events in Slovenia

Events within the domain of the co-founders of KEUPS

In Slovenia, each co-founder of the Commission of European Pathways (Keups) will organise its own event in 2011.

1. Tourist Association of Slovenia

will organise a gala capture of water from the lake and the sea, on 'Jezerski dnevi' in Kanal ob Soči, 21 May 2011

2. Alpine Association of Slovenia

will organise a gala capture of water from rivers and glaciers, on Slovenian Mountaineers' Day, 4 June 2011 in Jeruzalem.

3. Federation of Societies of Slovenian Forestry

will organise a gala capture of groundwater.

4. Slovenian Forest Service

will organise a gala water capture from water reservoirs in the forest, 9 September 2011

Each organisation will devote increased attention to this event, because water is certainly becoming an increasingly important strategic component of life on Earth.

Cycling marathon from Slovenia to Spain

As part of EVROPOHOD 2011, ultramarathon cyclist Radovan Skubic Hilari will promote the popularisation of cycling, travelling, hiking, WATER and our country, along with European walking paths. He will ride the E7 from Slovenia to Spain and then symbolically pour water from Slovenia. The journey will start from GEOSS, the centre of Slovenia, the heart of Slovenia, on 1 October 2011.

Photo contest and literary works

On the topic of 'walking and water', KEUPS will organise a number of competitions for different target groups in 2011.

Meeting at GEOSS, the heart of Slovenia

On Saturday 1 October 2011, in the presence of the President of Slovenia, Dr Danilo Turk, water from all four containers will be poured into one container, which will then be taken on a pilgrimage to Granda, Spain, to the central event of the total fusion of water. At the same time, Hilari will be escorted on the cycling marathon in Spain and awards for European footpaths in 2011 will be made.

Visit Spain

KEUPS will advertise a trip to Spain for the closing festivities from 12 to 16 October 2011, both by bus and plane.
